General End User Guide

2.1.20 Student Results → School Results

TrackOne STUDIO

The Learning Analytics Suite Components

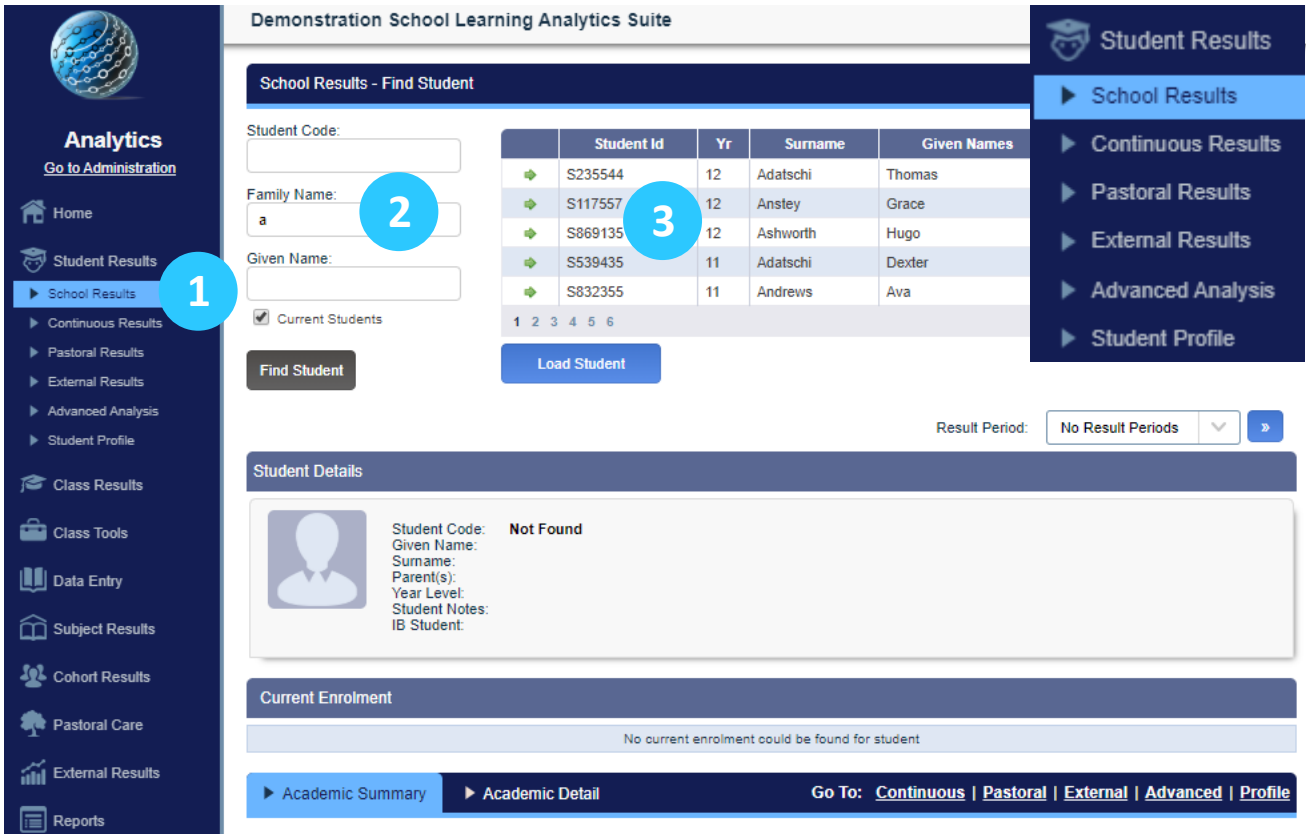

April 2020

This document will assist you in navigating through the Learning Analytics Suite as both an Administrator, and as a set user type with fewer permissions enabled in their setup, ie. Staff or Student. Please carefully review all instructions set out in the Help Documentation made available.

If you require further expansion or assistance at any point in the document, please do not hesitate to contact TrackOne Studio Support through the Help Desk by sending an email to helpdesk@trackonestudio.com.

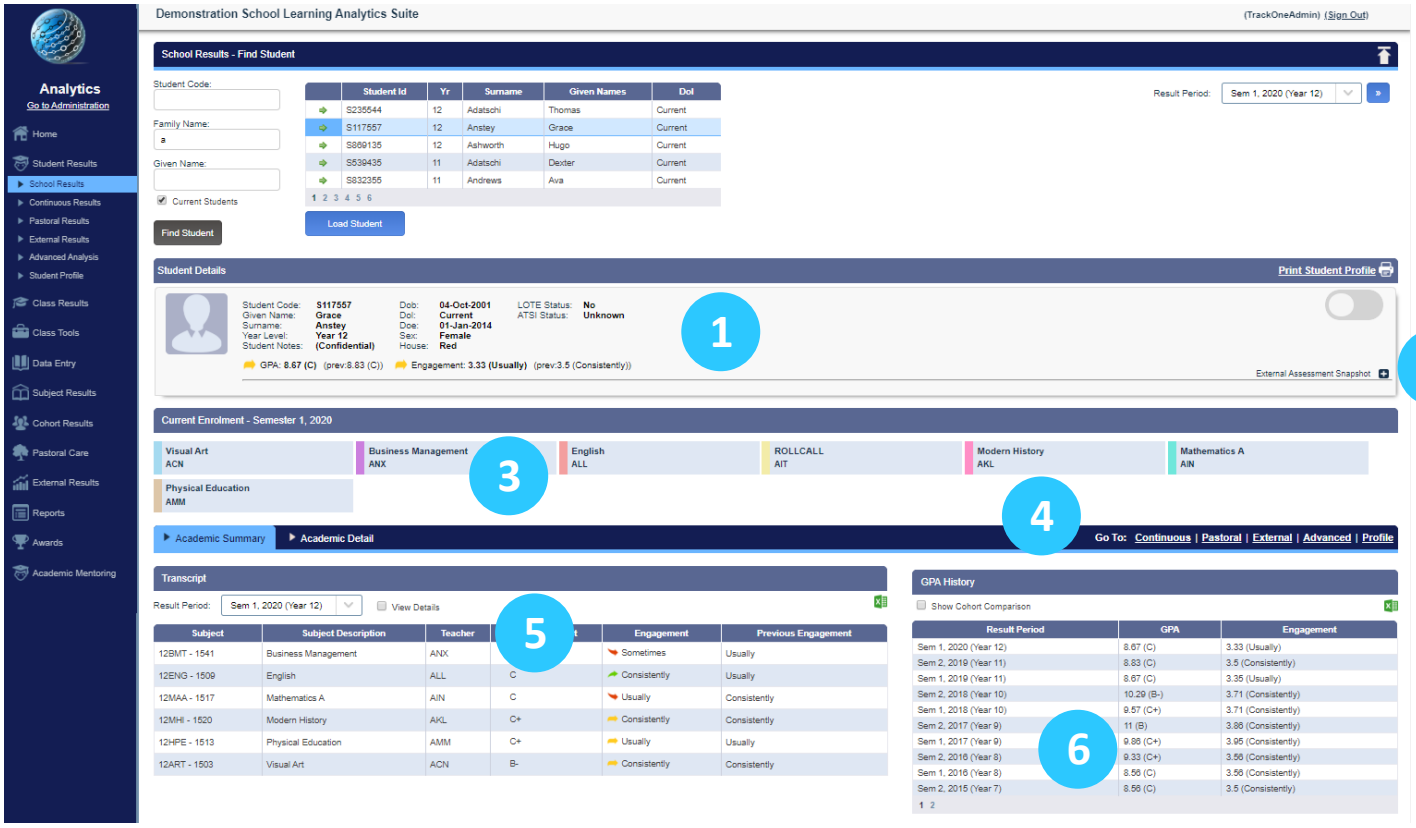

Introduction to School Results

The **School Results** subtab contains internal academic results, which are drawn from the school's Student Information System (SIS).

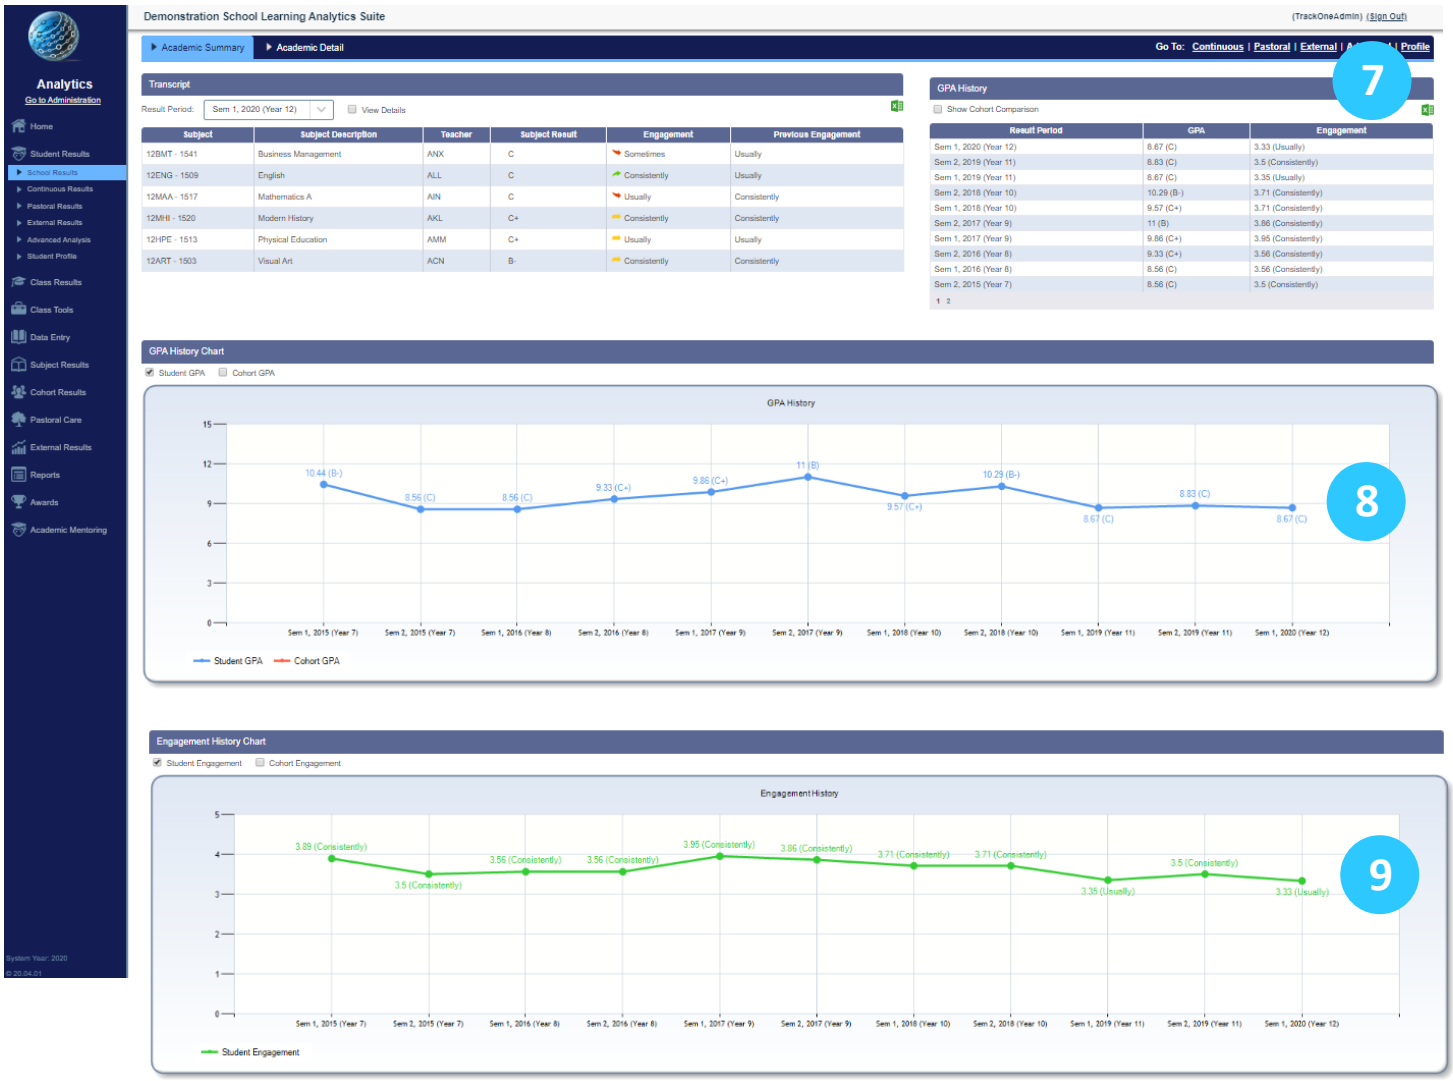

1. Click **Student Results**, followed by **School Results** to begin.
2. To search for a student, enter the whole (or part) of the student's code, family name or given name. Then click **Find Student**.
3. If more than one student matches the search, they will be listed in the table shown. Select a student by clicking the green arrow, then click **Load Student**.

School Results → Academic Summary

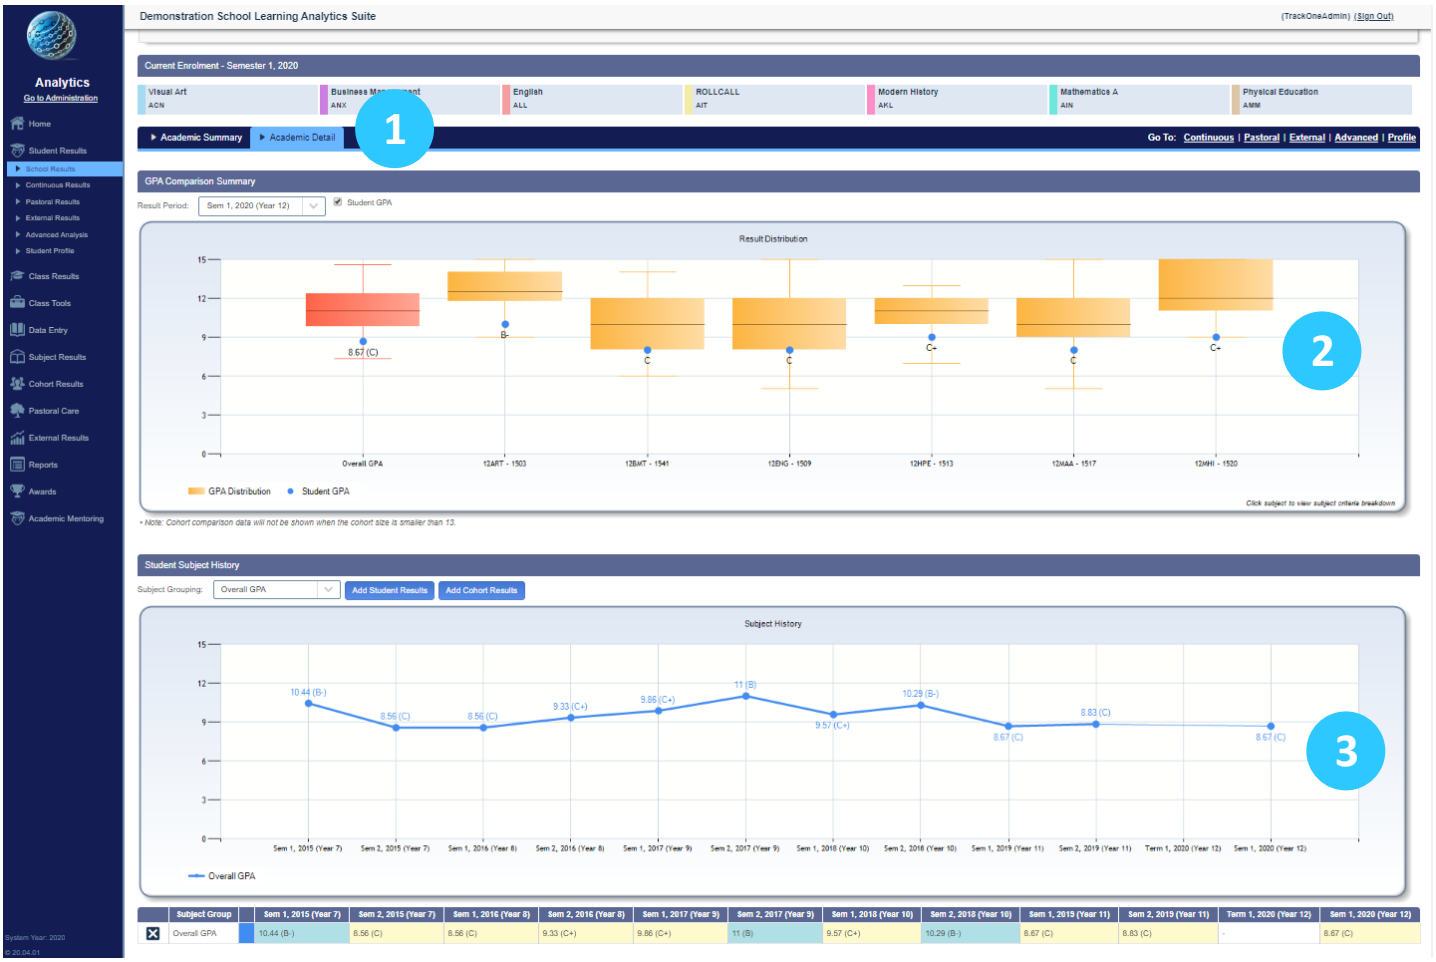

1. The **Student Details** area is a brief overview of the student.
   Note: The fields are customisable and may include Boarding, Scholarship, ESL, NCCD status, etc. Please contact TrackOne Studio for the setup of additional fields.
2. In the bottom right hand corner of **Student Details**, there is the option to view a snapshot of the student's External Results. Click the '**+**' icon to open.
3. The **Current Enrolment** area lists the subjects the student is currently enrolled in.
4. The blue horizontal menu bar enables the user to move between areas without changing the student.
5. The **Transcript** lists the student's academic and pastoral results for each historical period. Click **View Details** to display additional information such as sub-criteria results and comments.
6. The **GPA History** contains the overall GPA and Effort result (if available) for each historical period. Click **Show Cohort Comparison** to view the average GPA cohort result.

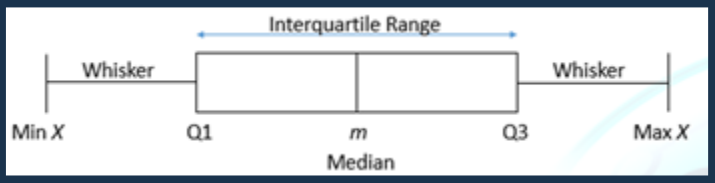

7. Click the green icon to export these tables out into Excel.
8. The **GPA History Chart** displays the student's overall GPA for all available result periods. Click **Cohort GPA** to overlay the average result for the cohort for each period.
9. The **Engagement History** chart displays the student's overall Engagement for all available result periods. Click **Cohort Engagement** to overlay the average result for the cohort.

School Results → Academic Detail

1. Using the blue horizontal menu bar, move to **Academic Detail**.
2. **GPA Comparison Summary** is a Box and Whisker plot, showing the median, quartiles, range and interquartile range for a set of data values.

GPA Comparison Summary plots the student's result (blue dot) within each subject relative to their cohort. Clicking on an individual subject will produce an additional chart below (displaying the sub-criteria results within that subject).

3. **Student Subject History** charts the student's results in a subject over time. To add a new subject to the chart, select the subject from the drop-down box and click the '**+**' icon.
